[1] The term "members" includes all regular and associate Exchange members, and member firms, general, special and limited partners in member firms, and voting and non-voting stockholders in member corporations.

[2] On the American Stock Exchange, all odd-lot transactions are handled by specialists, and their round-lot purchases and sales for odd-lot account are not segregated from their other round-lot transactions. In odd-lot transactions, customers' purchases are specialists' sales and customers' sales are specialists' purchases.

NOTE: All sales totals include short sales.

ANNOUNCEMENTS AND SPECIAL NOTICES

On September 4, 1973 the American Stock Exchange began calculating and publishing a new Market Value Index, replacing its Price Change Index. Set at base 100.00 at the close of trading August 31, the Index measures the aggregate market value of all shares, warrants and ADR's traded on the AMEX. It is adjusted to compensate for new listings, delistings, splits, suspensions and dividends. The AMEX Index is reported in our series Stock Market Indicators (M-5), found on page 1,029 of this issue. We expect to publish historical information for the Index when it becomes available.
